

How to use your Icon Move Mechanism

Synchronised Body Responsive Mechanism

Simplistic controls located all on one side make this mechanism really easy to use and ultra ergonomic. This quick and easy mechanism has been developed to put the user in full control of their chair, enabling them to work in free flow mode or lock the chair into a position that is comfortable for them.

1) Inflatable Lumbar Support

The hand pump at the rear of the seat will inflate the lumbar when squeezed. Depressing the valve will deflate the lumbar.

2) Seat Slide

Twist forwards to increase the seat depth, or backwards to decrease the seat depth until the seat is in the desired position.

3) Back and Seat Height Adjustment

Raise the lever and adjust the height of the seat to maximise comfort. Release lever when your seat is in your preferred position.

4) Back and Seat Angle Adjustment

Push the button to set the chair in any one of the 5 locking positions, or leave the button open to operate in free float mode.
